Essential reading

Now available on our website or from our office.

1. *Check List of Common Tech Problems*
2. *Information Sheet -5 Essential Programs to Enhance your Internet Experience*
3. *Information Sheet -6 Internet Etiquette*
4. *Code of behavior/conduct*
5. *Shed safety*

Past projects needed for history of our shed

Recently we were putting together a photo history of past events and projects we have been involved in and discovered the planter boxes (pictured above) had been left out.

If you have been involved in a project of the Shed and have pictures of that project please bring them to the shed office thanks.

Updating database

Could you please check in at office for your photo to be taken if not already on the database?

Restoration of a clock

Many hours were taken to restore the clock, with it's wonderful chimes and now refurbished case. This clock now rivals Big Ben.

(Many thanks go to Charlie Wilson for his pains taking efforts to restore the case.)

Improvements to Shed

1. New Picket Fence

We intend to replace the existing old paling fence with a new picket fence with the intent of giving easier access to the gardens.

2. New paving

Presently we are seeking quotes to pave the area around the garden. This is to ensure the area is safe for the public.

3. Possum Boxes

We are creating wooden possum homes as shown below if interested please contact the men's shed.

If you want a possum box made please contact the men's shed.

4. Want to learn about your computer

If you are having trouble understanding your computer, tasks, email, folders, Word, Excel, PowerPoint, creating a web site or just want some support please contact the Men's Shed.

5. Indian Myna Bird Traps

In preserving our native birds our shed is involved in a program of building traps .
